

## Policy Annoucement: Offline Browsers / Website Copiers - XOOPS

NEWS\_PDF\_AUTHOR: ackbarr

NEWS\_PDF\_DATE: 2004/12/10 14:50:00

There have been a recent rash of users attempting to make offline copies of [www.xoops.org](http://www.xoops.org) and [wiki.xoops.org](http://wiki.xoops.org).

Our policy: Don't.

Many offline copiers are setup to make many simultaneous requests to a website to improve copying performance. A busy website like XOOPS.org gets a lot of traffic (averages 3.5 GB transfered daily), and these offline copiers can easily eat up connections meant for normal users. If we catch a website copier, their address will be banned at the firewall.

First offense - a 1 hour temp ban

Second offense - a 1 day temp ban

Third offense - a permanent ban

This may sound harsh, but offline copiers negatively affect site performance; giving a false impression on the quality of XOOPS.

If you have a special request or need content on [xoops.org](http://xoops.org) for offline use, you may contact one of the webmasters asking for permission. It is entirely at the discretion of the webmaster to approve or deny this request.
