Dear XOOPERS,

I am proud to introduce a new theme of our webportal to you! This website is created for young writers to show their skills. They publish here poems, essays, reviews, critics (e.g. of society, culture) and topics that they are interested in. Most of them are students of journalist university. We are happy that it is getting more and more popular.

At this moment registered users can set up one of three themes. Unregistered users can just view all of the themes (right column, bottom).

Soon Mla.sk is gonna celebrate it's first birthday, and all that thanx to XOOPS and it's community!!!

Check it here [Mla.sk](#) .
