

XOOPS and CPanel - XOOPS

NEWS_PDF_AUTHOR: conmutador

NEWS_PDF_DATE: 2004/12/14 19:56:22

Have you noticed that CPanel, the leading web hosting control panel, has incorporated an addon to automatically install and maintain a XOOPS installation on any hosting account in their latest release 9.9.9?

I think this is great news because this will help spread XOOPS to literally millions of people who use CPanel and wouldn't know about XOOPS or how to install it on their own, but can do so using CPanel.

Regards,

Pablo 😊
