[The SmartFactory](#) is proud to release the first Release Candidate of SmartClient 1.0. You can download it here : [SmartClient 1.0 RC 1](#) The different language packs can be found here : [SmartClient Language Packs](#)

SmartClient is an advanced Clients Management System for your XOOPS site. It features all the fonctionnalities of the SmartPartner module but proposes to manage Clients instead of partners. Currently, both modules are pretty similar but they will evolved on different paths in the futur !

If you find any bugs or have any feature request, feel free to submit them in the trackers of the project at the [Developer's forge](#).

Finally, if you have translated SmartClient in a language not yet available, we would appreciate if you could send it to us for inclusion in the SmartClient package. You can send language packs at client@smartfactory.ca

Enjoy SmartClient !
