This is painfully simple but a good addition to any site.

Just create a new block (I called mine "Bookmark Us. . .").

Add this code:

----- copy from here -----

[Add to Favorites](#)

[Make Xoops Your Homepage](#)

----- to here -----

Be sure to change the xoops.org to your site etc.!

That's it! 🙌

See it in action [HERE](#) (on the right side above Polls).
