When some months ago the Instalation Guide was published in English, I have announced a spanish version. Now this work is done. I do not know to whom I should send it. 🙁

Thus, the spanish version is H E R E in PDF format.

Some small mistakes must be still settled. Should somebody find a translation or some other error, I thank for a short message (I´m not a spanish native speaker).

The images will be still exchanged with pictures from the Spanish Instalation.
(next weekend 😁)
