The 12th of January is the day of the reopening of the [myXOOPSshop](#) and the start day of this Project.

[myXOOPSshop](#) is a Project to bring eCommerce into the XOOPS world.

The needed Tools to work in a effective way are now ready to use.(Forum, Bugtracker, CVS). StudioC did a nice job to give this Site a clean and professional look to bring this Project to you.

With **xshop** and **zshop** you get an e-business solution based on xt:commerce and Zen Cart™ using XOOPS API and SMARTY.

Both shops used the best of the aboved mentioned existing shopsystems to have the best solution for the XOOPS Project also the experience of the XOSC 0.2 Beta (the first trial) will flow into this project.

If you want to follow the developing please visit the [Demosite](#)

Planned Features are visible [here](#)

The XOOPS Shop Project Team still needs help, so if you want to join the Team as developer, designer, translator or manual writer please use the following email adress:
