WF-Channel 1.07 released - Modules

NEWS_PDF_AUTHOR: Bender

NEWS_PDF_DATE: 2005/1/16 2:25:37

We are very happy to bring you the next version of WF-Channel. We highly recommend updating to this version as it fixes a security flaw of the last version.

This release has been made by Predator who took the time to join wf-projects besides his work on all of his other projects like NewBB2 and the upcoming shopping modules for Xoops.

As you might guess by the version number this release is primary a bugfix release. However feel free to post your feature requests for the next version in our forums.

The changelog and download link ...

 - Adding Full Security To Wf-channel seehttp://www.wf-projects.com/modules/ipboard/index.php?showtopic=591
 - Bug fixed "Disable Comments" seehttp://www.wf-projects.com/modules/ipboard/index.php?showtopic=258
 - Bug fixed "Admin section - rename menu"
 - Bug fixed "WF-C 1.06 text formatting bug"
seehttp://www.wf-projects.com/modules/ipboard/index.php?showtopic=315
 - Bug fixed "backendjs.php" seehttp://www.wf-projects.com/modules/ipboard/index.php?showtopic=315
 - Bug fixed "Page Menu Link Not Displayed On Link/refer Pages" (also Templates fixed)
 - Change Page Menu Link to a function.
 - Add define("_MD_NORIGHTTOVIEWPAGE","You do not have permission to view this page"); to main.php
 - Change in xoops_version.php variable $modversion['dirname'] not used now (
 $xoopsModule = &$modhandler->getByDirname($modversion['dirname']);)
 - Now 100% ML hack (marcan) compatible, so it is recommanded not to use the index.php for wfchannel from the ML package
 - modify link to wfsections2.com in wfchannel admin menu : Help Section, Report a bug section to wf-project site
 - Add

 tag
 - Bug fixed "Some wrong links in the language files and the upgrade.php"
 - Bug fixed "Refer a friend admin parameters : seems that mail default message is not taken into account in mail.">
