

MOVSTER - mobile content - YAXS

NEWS_PDF_AUTHOR: gfblock

NEWS_PDF_DATE: 2005/1/18 11:00:00

Today we launched our [mobile content website](#).

We wouldn't be able to do it without XOOPS and many of the modules available.

We used Xosc (highly customized!!!) to present a ringtones and wallpapers catalog, [Soapbox](#) for content management, [SmartFAQ](#), [Wordbook](#) and Buddy List -a custom development -for moblogging, as soon as the documentation is ready we'll make it available for everyone.

Thanks to everybody for doing such a great job.
