

TinyEditor 0.1 released! - Modules

NEWS\_PDF\_AUTHOR: ralf57

NEWS\_PDF\_DATE: 2005/2/9 16:40:33

I'm proud to announce the very first release of TinyEditor a stable, full-featured and cross-browser wysiwyg editor for Xoops system. It is based on the TinyMCE mambot by Ryan Demmer but it has been deeply modified and improved for xoops community.

This version is intended for local testing only due to the fact it's really unsafe yet.

[The module](#) is hosted at [Module Dev Forge](#)

so go there for downloads, bug reports, features requests, discussions and future updates.
