

Another New Zealand XOOPS site - YAXS

NEWS\_PDF\_AUTHOR: steadfast

NEWS\_PDF\_DATE: 2005/2/15 11:58:29

I'm proud to announce that my second XOOPS-powered site has now gone live at [www.wesedwards.co.nz](http://www.wesedwards.co.nz), as site for a traffic engineering consulting engineer.

The site makes multiple use of the Tiny Content module, together with Liaise for contact and feedback information. The evennews module is available for registered users.
