We've got a new theme for public release at [XOOPS@IBDeeming!](mailto:XOOPS@IBDeeming)

You can see the original concept for this theme [HERE!](#) It was developed for a realtor who wanted both a CMS (XOOPS of course - we pushed!) and a different kind of look than your standard Realtor website offers!

You can check out the generic version [HERE!](#)

You can get your own copy [HERE!](#)

Thanks for using our mods!
