On Saturday 26th of February, you get the chance to meet some of your fellow XOOPSers at the first European XOOPSDEM meeting! Parallel with the first day of the [FOSDEM](#) meeting, we will have the morning filled with presentations from the Core Team, take a midday break for lunch or RMS performing at FOSDEM (15 minutes away from our location), and continue in the afternoon with presentations from the community and time for discussions. In the evening we can all hook up and hit the town!

### PROGRAMME

8:30 - 9:00 Doors open

9:00 - 9:15 Opening

9:15 - 10:15 Organising the XOOPS Project and Community (Herko)

10:15 - 11:45 The New Frontier: Next generation XOOPS (Skalpa and Mithrandir)

11:45 - 13:30 Lunch or RMS @ FOSDEM

13:30 - 14:30 The French Connection (XOOPSFR community)

14:30 - 16:00 Freeform Solutions (jegelstaff)

16:00 - 17:00 Discussion

17:00 - 17:20 Closing

17:20 - ??? Cleanup (Herko)

### VENUE

We've rented a very nice room at the [Vrije Universiteit Brussel](#), which is not the same venue as the FOSDEM, but close by. [Here](#) you can see the location of the Etterbeek campus, less than a kilometer from the [Solbosch campus of the ULB](#), where the FOSDEM will be held (the XOOPSDEM will be held at the VUB next to the Plaine campus, see [map](#)).

We have rented VUB's **Promotion Room**, and will arrange for coffee/tea during the day. Lunch, dinner, travel and stay are not paid for by XOOPS. The Promotion Room has good facilities (video, projector, internet access, etc.) and has room for about 90 people.

### SOCIAL PROGRAMME

The evening is free for all, but I think it would be great to hook up and go eat somewhere with the whole gang. This may be a little difficult going into a restaurant and ordering for 20 people just like that, so ideas on this are welcome of course (perhaps we can get a group discount, or even some sponsors for the XOOPS Eat Your Heart Out Dinner? hint hint).

And after that I suggest we go to a bar or two and have fun 😊

Questions, comments: you know where to post them!
