

HydraPHP - XOOPS

NEWS\_PDF\_AUTHOR: dlh

NEWS\_PDF\_DATE: 2002/3/28 11:18:41

Thought all of you PHP developers might be interested in this software called HydraPHP. It appears to be a GUI development environment for PHP.

<http://www.coldmind.com>

I saw this news over at the {cough}PostNuke{/cough} 🤔 site. I'm not affiliated with this software, so I have no idea whether or not it is good or not - but I'm going to give it a whirl.

Happy coding,

Dan
