

Xoops ODP v1.0 released - Modules

NEWS_PDF_AUTHOR: bihlink

NEWS_PDF_DATE: 2005/2/21 7:14:34

Open Directory Project module for Xoops is released by <http://www.EzyGuide.net>. I hope that many webmasters will find it useful to have thousands of links in many categories and subcategories made by DMOZ who started ODP. Script will have some admin features soon, but it's ready to go. Make your search engine in few minutes with few files installed.
