["Marruecos Digital", a portal about Maroc in spanish.](#)

This is a project driven by a journalist who wanted a news and community portal that reached, or surpassed, the quality of the online versions of the most important newspapers in Spain. Who should you call? Me. Who should I use? Mmmm... Should I pay Bill Gates latest house for my website? Man, no!!! Go Xoops!

This is a non-profit newspaper that challenges professional, sponsored online news sites. Someone said me i'd need ASP to reach such a professional result. He was wrong.
