

GroupAccess: Functions - XOOPS

NEWS_PDF_AUTHOR: Anonymous

NEWS_PDF_DATE: 2002/3/30 21:46:01

I put together some functions which will let anyone with a bit of php/mysql know-how, hack any xoops module to accept user restrictions based on group levels.

Included in the file is a step by step guide on restricting the download of a file in mydownloads, and changing that same files permissions from the admin area.

Grab it [HERE](#).

P.S. Gimme some feedback in the forum in [this thread](#) please.

Cheers! 🍻
