[fireworks.verno.ru - news, articles, files](#)

The Site about program Macromedia Fireworks MX in russian language. The original theme for this site is completely drawn in Fireworks MX (color scheme of the site close to scheme of this program). Was done some change on adjustment menu, block, kernel and modules. Change concerned the modules News, MyLinks & MyDownloads (design), WFSection v1.0.1 (design & structure), the other modules.

Welcome on this site!

I wait your impressions.

Best regards,

Verter
