The SmartFactory is proud to release the final version of its latest modules: [SmartPartner](#) and [SmartClient](#)! A bug was found in the last version (1.0 RC 1) of both module that was causing some problems related to logo uploads. This has been fixed and both module are now ready to **SmartPartner** SmartPartner is an advanced Partners Management System for your XOOPS site. It features all the fonctionnalities of the original XoopsPartners module, combined with the features of the other SmartModules!

With SmartPartner, you can easily manage and display your partners ! The module supports partner description, logo upload, contact informations, hits count, visit count and more! You can see this module live in action here : [The SmartFactory's Partners!](#). You can download this module here : [SmartPartner 1.0 Final](#) Language Packs can be found here : [SmartPartner 1.0 Language Packs](#) Questions, comments and feedback are welcomed on the [SmartPartner's](#)

SmartClient SmartClient is an advanced Clients Management System for your XOOPS site. It features all the fonctionnalities of the SmartPartner module but proposes to manage Clients instead of partners. Currently, both modules are pretty similar but they will evolved on different paths in the future! With SmartClient, you can easily manage and display your clients! The module supports client description, logo upload, contact informations, hits count, visit count and more! You can download this module here : [SmartClient 1.0 Final](#) Language Packs can be found here : [SmartClient 1.0 Language Packs](#) Questions, comments and feedback are welcomed on the [SmartClient's Forum](#). Cheers!
