XOOPSIT.net, the italian xoops support site, is pleased to announce that the full revision of italian translation is available now at: <http://www.xoopsit.net/modules/mydownloads/viewcat.php?cid=23>

They have been corrected some orthographic errors, where needed now are displayed more information, in order to increase the understanding and, in general, we have tried to give even more homogeneity to the translation.

We think that this job will increase the perceived quality of the whole system, and we are pleased to receive any positive or negative comment from the italian user of XOOPS.

Thanks in advance to XOOPS.org for the space granted,
kind regards,
the XOOPSIT Staff (www.xoopsit.net)
