

PC Magazine Greece uses Xoops! - YAXS

NEWS\_PDF\_AUTHOR: skara

NEWS\_PDF\_DATE: 2005/3/22 18:39:52

[e-pcmag.gr](http://e-pcmag.gr)

The larger technology community site in Greece based on Xoops CMS!

The new version of **PC Magazine** web site in Greece was launched 3 months ago and it already has over **40.000 pageviews per day** and more than 3.000 registered users who grow rapidly every day.

Some of the services that the site provides are:

- Blogs [WordpressME module]
- Chat [FlashChat]
- User Galleries [xcGallery]
- Headlines [xmLine]
- Events Calendar [AMEvents]
- MyBuddies [based on a custom module created by Tuff]
- RSS Feeds [A new version of RSSFit]
- Virus Alerts [Symantec, Sophos, McAfee]
- WebMail [WebmailFX]
- FAQs [SmartFaqs]
- .GR Whois [Custom Module by Incredible Networks]
- Open Directory Project [OPD]

Also there are games such as:

- Chess
- Frozen Bubble
- Flash Games

The services do not end here as well as the possibilities of Xoops ;)

We want to thank the entire dev team of Xoops for this amazing CMS and also [Tuff](#) and [Incredible Networks](#) for their precious help.

Keep Xoopsing ;)
