[Swim Shop LLC](#) is a site that sells retail high-end spas, above ground pools, chemicals, and has a tie-in to a recently published site - [SpotLight Pools](#) construction. You've got to check out their [Spa Theater System](#) that has surround, LCD TV with full hook-ups for cable, DVD, whatever! Really cool stuff!

[Velocity Web Host](#) is providing entry level business class hosting with free set-up and configuration of XOOPS sites for selected businesses that fit the XOOPS mold. We admit, some may benefit from a static HTML site, but by providing a XOOPS type of front-end, we give our customers the control they are comfortable with, without the hassel of knowing how servers, telnets, HTML, all work together!
