Bad words sql file available - Modules

NEWS_PDF_AUTHOR: nocjock

NEWS_PDF_DATE: 2002/4/5 10:52:28

Just made available a 70+ word sql dump file of inappropriate English words. Search and replace the table prefix of xoops changing it to whatever your DB prefix is and then use PHPmyadmin to import the text file.

Make sure no kids are around as you're working on it. You can **Pick it up HERE**
