

Webcam Module - Modules

NEWS_PDF_AUTHOR: Bassman

NEWS_PDF_DATE: 2005/4/19 7:10:31

[Bassman Themes](#) has released version 1.0 of the new Webcam module.

This is a very simple module that displays a webcam in an i-frame. Please see the Readme file for instructions on how to link a cam. At present there is no admin section, which would be nice :) If anyone is interested in creating one, be my guest.

Demo and download available from [Bassman Themes](#)
(and has been submitted to the module library here at xoops.org)
