

[WOLFACTORY] The WolFactory update and facelift - YAXS

NEWS\_PDF\_AUTHOR: solo71

NEWS\_PDF\_DATE: 2005/4/19 10:00:47

As you can see on <http://www.wolfpackclan.com/wolfactory/>, the WolFactory has operated a little facelift.

Site update to the newest Xoops versions, a long with all our usual modules...

I have given some color to our traditional theme. Hope you like it...

Due to the fact that the guestbook was continuously spammed by stupid ads, I have removed it. Do not hesitate to post your impressions in our forums.

Forums have been revised and a new section has been opened to support the WolFactory's modules : [Modules and themes development support and questions](#).

I have updated the [Xoops "Wolf" Pack](#) with the newest version and revised the module selection.

Enjoy!
