We are proud to announce another site using XOOPS, [Haun Phillips Tile, L.L.C.](#) These folks are custom tile and stonework contractors. They were looking for ways to get a website up and running, show off their work, and maybe generate business!

After talking to several folks who build sites and basically getting shafted on prices, they came to us.

We presented them with free setup of XOOPS, theme customized to their site, and built it out for them. Needless to say, they were thrilled and we got the hosting business!

YAXS by [XOOPS @ IBDeeming!](#) and [Velocity Web Host](#)
