Hello Xoopers, We are glad that our new website <http://www.telugollu.com/> is running with xoops. Telugu is a regional language of Andhra Pradesh, India. Our site is all about telugu movies, news, movie trailers and lot more. We tested other Content management systems, but we are satisfied with xoops than others like Mambo and Drupal. Our site is available at <http://www.telugollu.com/>.

Once agian thanks for the XOOPS coders for their wonderful CMS and for their valuable time. We are happy to hear your comments.
