First Byte Software, makers of the Worldview Web Database and the \$MAN Accounting and Database system, has provided innovative and powerful software solutions to its clients since 1981. For over 1500 clients in Canada, the USA, Central America and Europe, we have supplied services and products for database and Internet programming, website design and hosting, and custom business applications.

First Byte has been a Microsoft Partner since 1990 and has been involved in business application development from unix to Linux to Microsoft & Apple platforms.

First Byte has embraced open-source software and is working to keep portions of its Worldview Web Database open-source.

Please visit our [new xoops testing site](#) and tell us what you think.
