

WordPress 0.5.0RC is released - Modules

NEWS_PDF_AUTHOR: nobunobu

NEWS_PDF_DATE: 2005/5/8 17:33:59

I released WordPress 0.5.0RC3 as new WordPress for XOOPS module.

New Features

1. More Secure!

- Ticket system based on GIJOE's Gticket classes are applied at most of admin function.
- Add some feature to disallow comment spams and trackback spams
- - Spam protection plugin based on WPBlaskList2.9.1 is included as standard plugin.
- - Add option "Deny Trackback whose site does not contain any link to my site."

2. Added feature

- You can integrate XOOPS Comment System instead of using WordPress Comment. (Optional)
- Using new SPAW Editor supporting gecko browser like FireFox.
- Duplicatable V2.1 like GIJOE's TinyD
- Permalink without using mod_rewrite
- More reliable synchronization between XOOPS users & WordPress users.

Please get for evaluating RC release from following link.
