If you want to participate and can't read Japanese, send e-mail to
XOOPS20050521@gmail.com

Although we have a session about the core of JP-XOOPS, the conference targets "all about XOOPS" including the core of 2.0.x, 2.1.x, 2.2.x, Oreteki, mox, and JP-XOOPS.

I -GIJOE- believe that the core is just a part of XOOPS 😬

Thank you.
