Xoops Tips has released a little guide - how to create a multiple-themed Xoops site.

Different from the themechanger module, the guide covers Tips/tricks on followings:
how to use different themes for individual modules;
how to change themes according to seasonal patterns; and
how to use different style sheets for different modules under the same theme.

You can find the tutorial at
http://xoops-tips.com/news-article.storyid-89.htm

Be sure to test our new themes! 😃

Special thanks to Suin (http://xoops.suin.jp/) The tutorial and hack is based on a Tip by Suin.

Cheers,
