### **Description**

This theme is the Xoops port of the popular, stylish, open-source Kubrick theme.

This is a fixed-width, two column theme. The XHTML and CSS is standards compliant. It will scale as far down as 800x600, and has been tested in Internet Explorer 6.0, FireFox 1.0, Opera 7.5, and Konquerer. It was set up to look good with a simple install, but also to be easy to customize.
