Netquery - Ports Datapak Update - Modules

NEWS_PDF_AUTHOR: RVirtue

NEWS_PDF_DATE: 2005/5/19 20:27:47

Updated ports datapaks for use with the Netquery module are now available from http://virtech.org/tools/

The ports datapaks for all Netquery editions have been updated to add the latest known services and exploits along with search links to locate supplemental information for each item. The Netquery v3.1 "complete" download packages have also been updated to include the new ports data.

After extracting and uploading the new datapak files, the updates are installed in the same way as the originals via the [Install Ports Data] item in Netquery's main administration panel.

Netquery Links: Downloads Xoops Demo Help Forums
