http://xoopsfactory.de - YAXS

NEWS_PDF_AUTHOR: studioC

NEWS_PDF_DATE: 2005/5/26 10:51:02

xoopsfactory will be splitted the next days; .com for my english friends and *.de for my natives.

actually i put some screens and shots (most with links to a running page) on
http://xoopsfactory.de
all examples (xoops-themes) shown are entirely build by the use of css for positioning stuff. So if ya boring and need some inspiration?

You'll find links to screenshots top letf on startpage.

michael
