

<http://xoopsfactory.de> - 2end anniversary - YAXS

NEWS\_PDF\_AUTHOR: studioC

NEWS\_PDF\_DATE: 2005/6/3 7:16:17

Happy to say that on 1st June xoopsfactory celebrated it's second anniversary. Xoopsfactory was there to be my playground for xoops Version 2 and partly there were some tips, information and things. 1st June 2003 was the day, xoopsfactory was born 😄 and even more happy to see an new star rising to the world of CMS **XOOSPHERE** is announced on 1st of June too. Thanks Herko! for submitting the roadmap on this date.

To celebrate this anniversary and the event of XOOSPHERE, i had nothing else in my head than regging the domain [xoosphere.de](http://xoosphere.de) 😄 which will be my playground for the coming versions and where i will place news and stuff from xoops.org in german language and this time hopefully more than only dummy content. 😄

Thanks again to all member of xoops-team.  
Always have FUN

michael
