**We proudly present...**

We've just launched a site called <http://www.sneup.nl>

On this site you can find lots of information about all kinds of subjects and bussines such as travel, dating and others. Maincore is the possibility of placing ad's. It uses theme 'foggy night' (very modified) and several modules like catads, imenu and xfsection. Credits and thanks to Xoops!

BTW: The word 'sneup' is Dutch for looking around, like on a marketplace for nice goodies. Have a look and enjoy!
