[The SmartFactory](#) is proud to release version 1.0 of its articles management module : [SmartSection 1.0 Beta](#) ! **What is SmartSection?** SmartSection is a section management module for your XOOPS site. It is intended to provide the best fonctionnalities of the **News** and **WF-Section** modules. The administrator would have the opportunity to use the module to manage *news*, *article*, *tutorials*, etc... It is intended to be complete, flexible and yet easy to use.

The module supports subcategories, has a fully integrated permissions system as well as a complete notifications system.

What's in version 1.0 ?

Version 1.0 does not introduce any new fonctionnalities but at lot of little bugs were fixed and we now consider the module to be fully complete and usable.

Where can I get it ?

Carefully read the file upgrade.txt as it contains important informations about the steps that need to be performed in order to successfully upgrade to this version.

You can download the module here : [SmartSection1.0 Beta](#).

The language packs are available here : [SmartSection Language Packs](#).

As usual, any comments, bugs or suggestion are welcomed on the [SmartSection Support Forum](#).

Enjoy !
