This hack saves your multi-account passwords on your computer by cookies.

For XOOPS 2.011

some features:
1 password is saved with md5 and will not be displayed on pages so there is no security concern when the page is cached.
2 multi-account applicable and you can choose an account to use from a select box
3 to remove an account from save list, just login leaving "save password" checkbox blank
4 auto switch between normal input box for typing username and select blox for multi-accounts
