TimesheetXoops v1.2.2 Released - Modules

NEWS_PDF_AUTHOR: dkeir

NEWS_PDF_DATE: 2005/6/26 13:41:18

The latest release of TimesheetXoops, v 1.2.2, is now available for download from TimesheetXoops on SourceForge. This release has some minor but very useful additions.

New Features in v1.2.2
 - Xoops Admin Section - This allows users to specify the Xoops Groups that can access the admin screens (Projects, Clients, Reports etc)
 - Multilingual - Screens can now be translated into different languages
 - Minor bug fixes and tidyup - calendar.php replaced with index.php with no more 'Please click to enter'

Standard TimesheetXoops Features
 - User, Client, Project, and Task Management
 - Calendar view of work, grouped by project or all projects
 - Monthly, weekly or daily views of work
 - The ability to customise look and feel
 - Work periods spanning multiple days
 - Automatic calculation of invoices
 - Manual Clock-on/Clock-off maintenance
 - Administrator views and reporting
 - Simple weekly timesheet entry mode
