

News 1.3.1, definitive version - Modules

NEWS_PDF_AUTHOR: hervet

NEWS_PDF_DATE: 2005/6/26 18:21:23

Hello,

The definitive version of the News module, 1.3.1, is available.
You can use it on a production website
It corrects some bugs of the previous release candidates.

List of changes

- A correction in the automatic generation of keywords and description has been made.
- The generation of PDFs was updated with the CBB's code.
- The statistical's part of the admin has been corrected
- A bug in the topics permissions has been corrected
- The module's search was also corrected

How to get the module

Simply go to its homepage :

http://dev.xoops.org/modules/xfmod/project/showfiles.php?group_id=1008&release_id=60

Upgrade

Launch the following script :

<http://www.example.com/modules/news/admin/upgrade.php>

Php 5 compatibility

The module was successfully tested with Php 5.0.4

Many tests were made with phpcoverage and xdebug to be sure that early all the code was treated by Php that's why I can affirm that the module is Php 5 compatible.

More

For more information on the new possibilities of this release, read [this article](#)

See it in action

You can [see the module in action on this website](#)

Have a look to the page's source code to see the automatic generation of keywords.

Bye,
Hervé
