Ghana Music.com one the most visited music oriented website in Africa on May 1, 2005 launched a new re-designed and re-developed website based on XOOPS.

By the end of May our traffic had more than doubled from 2 million hits a month to over 4.5 million hits. This is as result of deciding to shift from Article Manager which did not offer any interactivity.

After using Xoops for almost 2 months, we have made the final decision to use Xoops. Now the challenge that lies ahead would how to upgrade to the new model without creating any problems for the site.

You can visit the site to see how the various modules were used. Pls feel to comment on how we can make this site better.
