

XOOPS DB backup & restore 3.0 - Modules

NEWS\_PDF\_AUTHOR: phppp

NEWS\_PDF\_DATE: 2005/6/29 7:52:41

## **XOOPS Backup & Restore**

=====

**A module to allow you to easily backup and/or restore your XOOPS database**

**download:** [XOOPS backup 3.0 @ XOOPS CHINA](#)

### **Authors:**

backup 2.0 -- [webmaster@nagl.ch](mailto:webmaster@nagl.ch) ( <http://www.nagl.ch> )

restore (bigdump) -- Alexey Ozerov (alexey at ozerov dot de)

backup & restore 3.0 -- D.J. (phppp, <https://xoops.org.cn>)

### **Installation:**

=====

create a folder (upload/backup is suggested) for storing backup files

chmod the folder to 777

Install the module as usual in xoops (system admin - modules)

If you would create a cron job so that the database can be automatically backup, the URL shall be: YourXoopsUrl/modules/backup/admin/backup.php

### **Features:**

=====

1 backup XOOPS data and store in three ways: on the server, download immediately(admin only) or sent by email(URL or attachments)

2 tables can be select to be exported separately. useful for large tables

3 file number stored on local server can be configured

4 backup can be made by admin or via cronjob

5 restore XOOPS data from db files exported the module or by any db management script like phpmyadmin

6 capable for large file import by multiple sessions

7 restore can be done by non-webmaster, useful for XOOPS user related data restore.

8 timeout issues have been efficiently solved
