*Slovenia is a small country near Italy, Europe.*

We had a lot of problems with the old server and we couldn't provide decent support to Slovenian XOOPS users. So, now we are pleased to announce that there are still many good people in the world.

The organisation [Kreatura](#) offered us free professional hosting because they support open source projects. We are very grateful!

Our old url was: <http://www.xoops-slo.tk>

New url is: <http://xoops.specialci.com/>

Have a nice day!
