XOOPS Multilanguages 2.0.2 for XOOPS 2.0.13 - Modules

NEWS_PDF_AUTHOR: marcan

NEWS_PDF_DATE: 2005/7/7 22:10:42

As a new version of XOOPS just got out, The SmartFactory is proud to release its updated multilanguage hack : XOOPS Multilanguages 2.0.2, supporting XOOPS 2.0.13 ! Please note that XOOPS Multilanguages 2.0.2 **only works with XOOPS 2.0.13**. You can download the package here : XOOPS Multilanguages 2.0.2 Final.

Please carefully follow the instructions in the ReadMe.txt file as it contains **VERY important informations**.

If you are upgrading from XOOPS 2.0.10 with XOOPS Multilanguages 2.0, you can follow the instructions of XOOPS_2.0.13_ML_2.0.2/ReadMe.txt in order to upgrade to XOOPS 2.0.13 and XOOPS Multilanguages 2.0.2 in 1 step.

If you don't know what XOOPS Multilanguages is and you would like more info, have a look here : Learn more about XOOPS Multilanguages.

If you would like to see the complete changelog, have a look here : Complete ChangeLog.

Support for this package is offered on XOOPS Multilanguages Support Forum.

As usual, any feedback is always welcomed !
