GTLT moved to XOOPS - YAXS

NEWS_PDF_AUTHOR: DCrussader

NEWS_PDF_DATE: 2005/7/11 7:16:38

Yesterday, the previous page and whole database was wiped out, old, bugy and slower PostNuke was replaced with XOOPS 2.0.13 + Koivi Class + Multi Language hack 2.0.2.

Now GTLT homepage is easy to be maintained, and most important easy to use for the visitors, support forums are created with CBB 1.14 and are separated per nation. Every group leader from GTLT (eg. Spanish, Swedish) will respond to your questions regarding our work and existing translations.

The site is updated everyday.

GTLT means Global Translation & Localization Team with main objective to bring more applications available to different languages.
