

TimesheetXoops v1.2.3 Released - Modules

NEWS_PDF_AUTHOR: dkeir

NEWS_PDF_DATE: 2005/7/13 15:54:57

The latest release of TimesheetXoops v1.2.3 is now available for download from [TimesheetXoops on SourceForge](#)

This release now includes much tighter integration with the Xoops User table. You can now provide access to the module from the list of all available Xoops users. A new user no longer has to access TimesheetXoops first in order to create a user record in the module specific user table.

The original Timesheet.php application user interface has been reimplemented and now looks great in IE as well as Firefox.

Standard TimesheetXoops Features

- User, Client, Project, and Task Management
- Calendar view of work, grouped by project or all projects
- Monthly, weekly or daily views of work
- The ability to customise look and feel
- Work periods spanning multiple days
- Automatic calculation of invoices
- Manual Clock-on/Clock-off maintenance
- Administrator views and reporting
- Simple weekly timesheet entry mode
- Multilingual - Screens can be translated into different languages
- Xoops Admin Section
