after a couple of false starts..... introducing

All-Boards.com - THE MOTHER OF ALL BOARDS!

[All-Boards.com](#) is a little bit of this and a little bit of that, with an emphasis on outrageous and offbeat current events.

The theme is a hacked version of OceanNet's [Harmony theme](#).

Besides the customary XOOPS modules, I've also added a merged version of the [Frozen Bubble](#) module and a cleaned-up version of the [Fun Flash Games](#) to create a single games page.

This was an enjoyable project. You're invited to [stop by the site](#) for a peek. If the offbeat and bizarre interest you, sign up and join us.

And I certainly welcome your critiques.
