Services Module v1.0 - Modules

NEWS_PDF_AUTHOR: Anonymous

NEWS_PDF_DATE: 2005/7/21 10:09:20

Today, xoops-mexico website release a new module.

RM+Soft Services allows you to publish different types from services online (eg: webhosting, design works, advertise), to receive requests of such, to create promotions, etc.

In addition you can detail the characteristics of each service to obtain an information but of the same one. This is version 1.0 BETA reason why it can contain errors. If you detect any bug please contact us at http://www.xoops-mexico.net
