In [Xoops.org.es Themes](#) you can see all the themes (by now) published. You can select it and view it with different modules. 🤖

There are 3 languages, spanish(from hispanoamerica), castellano (called spanish from spain es\_es, but it is a personal translate because not exist an official) and english.

I have a bad english 😞 .If somebody corrects to me, I would be thanked for it. And more people in the world can understand it.

And if others want to include another language, there is not a problem if send to me the texts.

And I am open to the critics and to correct the errors. 😊
