

## CBB 2.2 Final Release - Modules

NEWS\_PDF\_AUTHOR: phppp

NEWS\_PDF\_DATE: 2005/7/31 14:42:19

### CBB 2.2 Final Release

XOOPS Community bulletin Board 2.2, ONLY for XOOPS 2.2

Download:

<https://xoops.org.cn/modules/wfdownloads/singlefile.php?lid=319>

Features:

See Changelog

Guide:

1 CBB 2.2 will upgrade your (any version) newbb/CBB to up-to-date CBB (currently 2.2) automatically by updating module CBB

2 Make sure to re-configure your CBB blocks since XOOPS 2.2 changes the way for block management

Changelog:

1 block/profile/css/adminmenu/encoding related content upgraded to XOOPS 2.2

2 XOOPS editor framework implemented

3 permission management separated from forum/category and default permission set and management added

4 category/forum creation on module installation

5 send PM with quoted post content

6 embedded upgrade: any version of newbb/cbb could be updated to up-to-date CBB by updating module

7 forum queries in xoops\_version.php moved to save db query

8 change relative path to full path for some images

9 change forum list in jumpbox and topicmanager to a more clear style

10 moderator management merged into forum admin form with xoopsusersselect form

Team CBB:

<http://cbb.getituponline.com>

Note: A CBB 2.2 Final package copy will soon be available
